**Brief Overview of Exhibition**

Date: 18th (Wed.) April-20st (Fri.) April 2018  
 Venue : Tokyo Big Sight Exhibition Center, East Hall 1, Tokyo, Japan  
 Organiser : UBM Japan Co Ltd

**What is Fine Chemicals Japan?**

Fine Chemicals Japan aims to enhance the quality of people's lives to provide a platform for the exchange of information about the technological innovations and developments in the industries which have strong demand for high-functioning chemicals and to allow participants to create new business opportunities.

**FINE CHEMICALS**  
 18-20.04.2018 TOKYO BIG SIGHT JAPAN

**Market Demand****Fine Chemicals Japan will provide clear solutions for the following:**

- Business match-making opportunities for finding new partners and customers efficiently for the development of new products
- Sourcing information on the latest chemicals in Japan and overseas
- One-stop sourcing of products
- Providing a specialised exhibition and conference for the fine chemicals industry in Japan
- Information on the capabilities of international chemical manufacturers
- A place for conducting business meetings with suppliers & clients

**Visitor's voice**

I am working in the research and development department of an electronic manufacturer and found many interesting and exciting products in the exhibition. The seminars had a lot of useful information and it was great to join.

The seminars covered not only technical and academic topics but also market trends. The seminar given by the investment company was a rare opportunity. Overall the seminars covered a broad spectrum of information and it was well worth my time to attend.

The companies that were exhibiting were highly relevant to our own business fields; I will definitely visit this show next year.

And Many More

**Exhibitor Categories**

- Chemical Manufacturers  
 (High polymer materials Organic materials / Inorganic materials / Carbon products / Coating materials / Battery-related materials / Organic EL materials / Photocatalysis-related materials / Heat-resistant materials / Conductive materials / Light-emitting materials / Functional pigments / Display components / Molded plastic products / Membrane-related materials / Chemical fibers / Unwoven cloths / Inorganic fibers / High-function resins / Industrial chemicals / Film materials / Sheet materials / Synthetic rubbers / Additive agents / Surface active agents / Civil engineering & construction materials)
- Consigned R&D
- Equipment and Machinery Manufacturers
- Trading Companies

**Life science innovation; creating a better world****12 Specialized and Integrated B2B Events under One Umbrella**
**Putting the Global Spotlights on Japan's Leading Edge Medical Technologies**

In order to reach a wider range of pharma professionals, CPhI / ICSE / P-MEC / BioPh / InnoPack Japan since 2015 have been promoted with UBM's medical device manufacturing shows commencing with MEDTEC Japan under an umbrella called "Japan Life Science Week" since 2015.

Together with the specialized visitor promotion for each target of the 12 parallel shows including Health Care IT - an event launched in 2016 and Fine Chemicals Japan, which are held in the same venue, in the same date, the life science concept generates synergetic effects in creating new business opportunities beyond the industries.

*Life sciences represent a vital industry sector that will drive Japanese economic growth in the future.*
